

Use White Enamel It Makes Old Things Modern

Just now, painted enameled furniture is popular, and because it is a sensible fashion, it is likely to continue. White chairs, tables and beds have a clean, spic-and-span look that is in keeping with the modern standard of health and sanitation.

White enamel is decorative. It lightens and brightens dark, heavy furniture. It gives a dainty, attractive effect to pieces that are uncomfortably plain and out of date.

Vitrolac Enamel, made by the Harrison Works of Philadelphia, is made especially for home use. It gives the rich, full-bodied effect that you most desire. Vitrolac Enamel comes ready for use, in cans of convenient sizes. Anyone can apply it and get good results.
